

Quick guide to loading your content

support.platform@energypost.eu

Text (no HTML)

Title

Capital letters should only be used for the first word and proper nouns.

Introduction

Try and sum up the whole piece. We always put the introduction in italics.

Main body

Each time you introduce a country, person or company make the text bold the first time.

Pictures

Every article needs a featured image which will appear when you share to social media and on the energy Post homepage

Image size

Featured image: 500x241px - Extra images: max 800px wide

File type

.png best, jpeg also fine

Profile pictures

Image should be square to avoid distortion on some pages. 200x200px ideal.

Author name and display name

Each author requires a profile. It could be a colleague or your company or yourself, but the important thing is that readers can see the profile of the author/s if they wish for transparency. Additional authors can only be added by the moderator.
