How to pass a value between frames in WPF?. I know of the Application.Current.MainWindow.Text = "Naveena"; is it the only way? I have a simple application that has buttons and other stuff. I am using MVVM pattern to make it all neat and clean. The buttons will take me to another frame, what i would like to know how to pass the value of the textbox which is in the first frame. Thanks in advance. A: 3da54e8ca3
