BluffTitler Ultimate 13.2.0.1 Portable Crack - CrackingPatch 64 bitQ: Bash Script to change every line of a file to be all lower case Hello I'm very new to bash programming and was wondering if someone could help me to write a script that goes through every line in a text file and changes it to be all lower case. I have tried the code below which works but only if I type it in the Terminal, I was wondering if I could write it as a bash script so that I don't have to type it every time I want to make a change to a file. cat myfile | tr 'A-Z' 'a-z' | tr A-Z a-z The above code works but it only works if I type it in the Terminal. How can I make it work in a bash script? Thank you! A: The easiest solution would be to start with the contents of the file, for example: cat myfile then do something like: tr A-Z a-z Q: Converting array to string and back doesn't equal: When trying to convert an array of data from the server to string and then back it doesn't equal. Any help would be appreciated. Server data: var section_id = 15; var section_type_id = 8; var text_data = [{"id": "1", "type
