Q: Show Default Titles in GtkListStore How do I display a default title for a GtkListStore before the first record is displayed? I'm trying to avoid confusing the user if the list is empty. A: The first record will have a null title. g\_list\_store\_set (liststore, "title", g\_strdup ("My Title"), -1); You can set it to whatever you want after that. The latest version of major operating system Windows includes a feature that reminds and warns users when they are trying to install new application or do system-level update. Windows 10 version 1809 includes the software update tool called "Windows Update for business" that will be useful for IT admins and corporate users that need to deploy and manage their enterprise-level software updates. In Windows 10 version 1903, the software update tool is called "Windows Update for business" which emphasizes the task-based approach that can be used to configure and manage Windows 10 updates at the enterprise level. Microsoft is testing this Windows 10 update model at pilot program called "Windows Update for Business" in 10 cities The software update tool will be automatically installed in selected cities and will allow IT admins to specify how updates can be applied to Windows 10 PC and/or Devices. While installing updates manually is still possible, Windows 10 1809 and 1903 will pause the updates during PC start-up and will wait until the user to request for installation. In other words, this new feature will wait until the user logs in to the computer and then is able to install new Windows updates. The IT admin can also create a schedule or a 6d1f23a050
